

2019 Class Descriptions

Clarity PPM

Class Code	Name	Description	Duration (minutes)
CL - Alt	Know Thyself... At Work	Part presentation, part open discussion, this unique session will focus on offering philosophies and practical tips around increasing the wisdom we have about ourselves as we navigate our corporate lives. Using conscious leadership principles as a guide, we will cover topics such as empathy in the workplace, understanding and working through our internal drama, and the benefits of meditation and silence.	60
CL - Alt	ServiceNow PPM Demo	Has the ServiceNow team been pushing ServiceNow's PPM product within the organization? This class is a demonstration of ServiceNow's PPM product with the goal of providing information on what it does and does not do. This is not a sales presentation or a feature by feature comparison with Clarity.	60
CL - Alt	The Concepts of Creativity	The concepts of Creativity are tools and habits that help you to become more creative(and your team!). Some of the training shocked me. During this session you will learn simple tricks and methods to encourage a more creative environment within your teams. Creativity training includes emotional intelligence and behaviors aspects all in one.	60
CL - Alt	Apptio and Clarity, Complementary Tools	Does your organization own Apptio or looking to purchase it? In this session we will dive into what Apptio is and how it complements your current Clarity solution	50
CL - Alt	Workfront and Clarity, Complementary Tools	Does your organization own workfront in a marketing or other group doing digital asset management? In this session we will dive into what Workfront is and how it complements your current Clarity solution	
CL - Funct	Demand Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of demand management? In this class, we will review the OOTB objects, views, and functions of ideas, incidents, and other related areas. We will cover both classic and newUX highlighting differences.	60
CL - Funct	Project Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of project management? In this class, we will review the OOTB objects, views, and functions of projects, financial plans, tasks/assignments, IRC, and other related areas. We will cover both classic and newUX highlighting differences.	60
CL - Funct	Resource Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of resource management? In this class, we will review the OOTB objects, views, and functions of assignments, allocations, and other related areas. We will cover both classic and newUX highlighting differences.	60
CL - Funct	Financial Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of financial management? In this class, we will review the OOTB objects, views, views, and functions of financial plans, rates, and other related areas. We will cover both classic and newUX highlighting differences.	50
CL - Funct	Portfolio Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of portfolio management? In this class, we will review the OOTB objects, views, and functions of portfolio management.	50
CL - Funct	Roadmap Management OOTB Introduction	Do you want to understand the OOTB configuration and functionality of roadmap management? In this class, we will review the OOTB objects, views, and functions of roadmap management.	50
CL - Funct	Demand Management Best Practices	Are you starting a demand management implementation or do you want to compare how you are using these functions vs. others or best practices? In this class we will discuss some best practices from successful customers.	50

Class Code	Name	Description	Duration (minutes)
CL - Funct	Project/Financial Management Best Practices	Are you starting a project/financial management implementation or do you want to compare how you are using these functions vs. others or best practices? In this class we will discuss some best practices from successful customers. Rego Wagile Board	60
CL - Funct	Portfolio/Roadmap Management Best Practices	Are you starting a demand/portfolio management implementation or do you want to compare how you are using these functions vs. others or best practices? In this class we will discuss some best practices from successful customers.	60
CL - Funct	Resource Management Best Practices	Are you starting a resource management implementation or do you want to compare how you are using these functions vs. others or best practices? In this class we will discuss some best practices from successful customers.	60
CL - Funct	Demand Management Roundtable	Do you want to talk to other customers that are using or plan to use demand management? In this moderated Round Table where customers can share experiences and provide insights on process, configurations, challenges, and successes. We will divide into small groups and discuss customer selected topics - 100% sharing.	50
CL - Funct	Project Management Roundtable	Do you want to talk to other customers that are using or plan to use project management? In this moderated Round Table where customers can share experiences and provide insights on process, configurations, challenges, and successes. We will divide into small groups and discuss customer selected topics - 100% sharing.	50
CL - Funct	Resource Management Roundtable	Do you want to talk to other customers that are using or plan to use resource management? In this moderated Round Table where customers can share experiences and provide insights on process, configurations, challenges, and successes. We will divide into small groups and discuss customer selected topics - 100% sharing.	50
CL - Funct	Financial Management Roundtable	Do you want to talk to other customers that are using or plan to use financial management? In this moderated Round Table where customers can share experiences and provide insights on process, configurations, challenges, and successes. We will divide into small groups and discuss customer selected topics - 100% sharing.	50
CL - Funct	Portfolio/Roadmap Management Roundtable	Do you want to talk to other customers that are using or plan to use portfolio/roadmap management? In this moderated Round Table where customers can share experiences and provide insights on process, configurations, challenges, and successes. We will divide into small groups and discuss customer selected topics - 100% sharing.	60
CL - Funct	Resource Manager Best Practice "Day in the Life"	This class will provide a list of daily and weekly activities that every resource manager should follow to leverage Clarity more effectively.	60
CL - Funct	Project Manager Best Practice "Day in the Life"	This class will provide a list of daily and weekly activities that every project manager should follow to leverage Clarity more effectively.	60
CL - General	Sunday Reception	Welcome Reception	120
CL - General	Monday Breakfast	Rego - Intro	10
CL - General	Monday Lunch - Vendor	Key Rego Innovations - Rego Wagile Board, AIR, Extractor	20
CL - General	Monday Breakfast	Announcements	10
CL - General	Tuesday Lunch - Vendor	IT Design	20
CL - General	Tuesday CA Product Roadmap	Broadcom	40
CL - General	Wednesday Breakfast	Announcements	10
CL - Gov	6 Industry Trends for PPM	What should I expect to see within my organization related to PM over the next couple of years? How should I prepare my PMs, PMOs, or myself to embrace the new trends within the industry. This class will share Rego's observations on industry trends within PPM.	60

Class Code	Name	Description	Duration (minutes)
CL - Gov	Adoption and Perception Strategies	Do you need to increase user adoption? Participate in this interactive discussion on the best practices for energizing your user base and increasing Clarity value perception.	50
CL - Gov	Agile Primer	Would you like to get an overview of the fundamentals of Agile? This session will dispel the misconceptions of Agile and provide an understanding and definition of terms such as "bi-modal", "Scrum", "Kanban", "weighted shortest job first" and "SAFe". We will also talk about how Clarity fits into the Agile discussion and provide thoughts and practices on how PMOs are responding to this trending methodology.	50
CL - Gov	Clarity - Agile Integration Bi-Modal IT	Are you struggling with implementing Agile tools in your organization in addition to Clarity? This class will review best practices for implementing agile tools in conjunction with Clarity - living in a Bi-Modal world. We will discuss how Clarity can be used to govern both types of work and teams and how Agile tools should interface into Clarity. Rego Wagile Board	60
CL - Gov	Clarity Integrations Most Common	What integrations are the most requested and the most utilized? This class will review the most common interfaces to and from Clarity, including best practice use cases and lessons learned from real implementations.	60
CL - Gov	Clarity Support Organization Best Practices	Can your Clarity support team become more efficient? This class will discuss how other Clarity users solve issues, discover solutions, and successfully use Clarity. We will review industry best practice and how to support your user base with the optimal team.	50
CL - Gov	Contract/Vendor Mgmt Clarity Role	Are you tracking your vendor contracts outside of Clarity? Have you ever considered moving the data into Clarity? This session will review a set of use cases where Clarity is being used to manage vendor contracts and how they are linked to resources, projects, and time to drive efficiencies in monitoring contracts and comparing actuals to invoices.	50
CL - Gov	Dashboards/Metrics Best Practices	Are you looking for some great examples of dashboards that include metrics/KPIs? This session will review a host of sample metric dashboards in use today that can spark ideas for you to implement in your company.	60
CL - Gov	Excel and Clarity Working Together	No matter how hard we try, many organizations cannot pry Excel out of the hands of project and resource managers. In this class we will explore possibilities that give up the battle and embrace Excel as a great data entry tool. We will show some neat case studies on quick Excel integrations deployed at customers.	60
CL - Gov	Latest Clarity Release Value Overview	Are you on an older version of Clarity? Do you want to understand the value of the new features and functions in recent versions? This class is a demonstration of the new features and the value of these features for customers.	60
CL - Gov	Manage Schedules Externally - MSP/Smart-sheet OOTB and Rego Connectors	Struggling to use an external scheduler like MS Project or Smart-sheet with Clarity or investigating its potential? Learn how to effectively use these tools with Clarity in this training, which includes best practices and lessons learned. We will show both OOTB and Rego build connectors that will make the bidirectional connections seamless.	60
CL - Gov	Ongoing Training/Mentoring Best Practices	Do you struggle with how to implement a perpetual education program that continues to add value within the organization? This session will discuss best practices in the creation and structure of an ongoing training/mentoring approach that assist with Clarity adoption.	50
CL - Gov	Organizational Change Management Introduction	Have you heard of Change Management but you're not quite sure what it is exactly? This introductory class will provide a high-level overview covering the basics of Change Management as a practice to help your projects reach their goals and obtain benefits realization more quickly.	60
CL - Gov	PPM Roadmap Always Have a Vision	We have found that one of the keys to long term success within PPM is to have a living strategic roadmap. An organization must have a vision of where they want to be and must keep moving forward. This session will review the key elements needed to create an effective roadmap that can drive increased maturity and excitement within your organization.	60

Class Code	Name	Description	Duration (minutes)
CL - Gov	RegoLink & RegoX-change Offering Review	Have you looked in the regoXchange or reviewed Rego's innovation offerings? This class will show you the power of Rego's pre-built content library, integrations, and other assets. See example after example of portlets, processes, and materials you can use to add value to your instance of Clarity. Learn how you can introduce email based approvals with Rego's action item responder. Get a peak at Rego's new MSP integration that avoids the issues faced with the OOTB integration. Finally, understand Rego's pre-built connectors and how they can benefit your instance.	60
CL - Gov	Reporting Strategies	Are you overwhelmed by all the new reporting changes and options? This class will explore the various reporting tools available in Clarity and help you understand the best way to output your data. We will provide use cases and examples to assist you in developing a reporting strategy for your organization.	60
CL - Gov	RMO Creation and Optimization	Does your organization struggle with resource management? Have you considered creating a Resource Management Office (RMO)? This session will review how some organizations are using RMOs to drive adoption and effectively manage resources, including real world examples of RMO setup and execution.	60
CL - Gov	Roadmaps in the New UX	Have you heard about the new Roadmap features in 15.4? Come see what all of the hype is about.	50
CL - Gov	Selling the Value of PPM	Do some folks in your organization see Clarity as worthless or of little value? In this class we will discuss how to increase the value perception of Clarity and innovative ways to sell the value Clarity provides with stakeholders and users.	50
CL - Gov	ServiceNow & Clarity Integration Options	For clients that have both ServiceNow and Clarity, passing information between the systems becomes vital for the enterprise with both ITSM, Demand, and PPM toolsets. One of the biggest areas of interaction is around Demand Management. Come and see Rego's Integration solution which flexibly allows for ServiceNow records (Incident, Problem, Idea, Enhancement, and Demands) to generate Clarity Ideas or Projects.	50
CL - Gov	Stage Gating	How do companies track stage gates within Clarity? This session will review some best practices for tracking, monitoring, and approving stage gates within Clarity. We will discuss pros and cons of various options to help you select the best method for your company.	50
CL - Gov	When, Why, and How to Stay OOTB	Did you stray from OOTB? Was that the right decision? This will be a discussion on pros and cons of sticking to Clarity's stock attributes, views, and general capabilities. When does it make sense to avoid custom configuration? Conversely, when does it make sense to move beyond the standard OOTB setup?	60
CL - Gov	Run IT as a Business: Technology Business Management (TBM) / ITFM with Apptio	What is Technology Business Management (TBM) or IT Financial Management (ITFM)? Why is it important for IT? This session explores the need for TBM and how it drives significant cost optimization and more effective business-technology management practices. The class reviews the TBM framework, taxonomy, and model and how TBM processes and tools compliment your existing investment in PPM tools.	50
CL - Gov	Using Blueprints in the newUX Best Practices	Struggling to figure out how to best organize your blueprints? This class will walk through best practice blueprint design, including how many to have, how to use channels, using custom subobjects within the blueprint, swapping blueprints at various project stages to mimic project phases or even ideas. We'll highlight some of the creative ways we've seen blueprints used in client implementations.	50
CL - Gov	Office 365 for Projects and Teams	Does your company have Office 365, but you're not sure what it can do for you? This session will cover what Office 365 is, and provide insights into how Office 365 can help your teams work faster, and work smarter.	50
CL - Gov	Getting More Value from SharePoint in PPM	Are your project teams using SharePoint effectively and getting the most value out of it? Is document management a daily struggle? Learn how to use SharePoint with Clarity in a more seamless way to improve collaboration and team productivity.	60

Class Code	Name	Description	Duration (minutes)
CL - Gov	Surveys and Project Audit/Quality Metrics Clarity and SharePoint working together	Have you ever thought of using Clarity for Survey's or quality audits? How would you like to create dashboards with metrics from surveys, lessons learned, project audits and quality? In this class we will review a customer use case where all of this is done in Clarity - linking to SharePoint to capture survey results and then produce dashboards inside of PPM and SharePoint based on some very specific metrics.	50
CL - Gov	Migrating to the newUX Best Practice and Lessons Learned	Are you still using all classicUX? Are you wondering how and when you should transition to the newUX? This class will be a practical guide on how to know what to move and when to move. We will discuss real use cases and help provide guidance on this strategic decision. [JPMC to provide case study]	60
CL - Gov	Capturing Value and Strategic Planning	Are you considering the use of Clarity's benefits tracking for planned and/or realized benefits? How do you track benefits that cannot be monetized? Did you know Clarity has a FREE module that has the ability to track value metrics? Rego will walk through some use cases where firms have been able to track strategic value, including monetary benefits, non-monetary benefits, and metrics related to them.	50
CL - Gov	Clarity and Rally Integration OOTB and Rego	Have you considered using Rally in conjunction with Clarity? Have you seen or heard about the OOTB connector? This class will go through the OOTB connector in detail, and show how Rego has built our ad-ons to enhance the connectivity between these two tools.	60
CL - Gov	ITBM Ecosystem & Competitive Analysis	Do you know what other PPM, APM, Agile, ITFM and other tools are out in the marketplace? Have you ever taken a strategic look at the key IT processes and the tools that exist to support them? Have you been asked to evaluate and recommend a PPM tool? This class will review the ITBM tools and give you a look at some of the pros and cons of tools on the market. We will also provide 6 keys to Evaluating a PPM Solution.	60
CL - Gov	How to Design Professional-Looking Reports	We once had a client refer to the reports they developed as the "Fisher-price" reports. Reports should be built with consistency, using graphic design principles. Join a Rego architect and UX designer to learn some fundamental graphic design principles such as grid theory, ink-to-data ratio, flow and balance, etc. Come prepared to be "wow-ed".	50
CL - Gov	AI and PPM: What Might the Future Hold	At the Gartner conference, artificial intelligence was a hot topic. In this session we will discuss some of the AI trends and potential impacts within the PPM industry	
CL - Gov	Project-to-Product: A Practical Guide to Making the Transition	Our clients and industry analysts agree that the time has come to make the transition from "projects" to "products" -- but many organizations seem to be struggling with how to get started or what to do (e.g. how to "scale agility"). This session reviews key success factors of Broadcom Clarity's own project-to-product transition to provide insights into what might be confusing or challenging your organization and provides practical advice on how to get moving in the right direction.	
CL - TechADV	Data Model Intermediate	Do you have enough experience with the data model to be dangerous - maybe just the basic project and resource tables? This class will take you to the next level in understanding the Clarity data model and provide training on how to write queries within Clarity for use in your portlets and reports.	60
CL - TechADV	NSQL Portlets Intermediate	Do you have basic NSQL and grid portlet knowledge along with the desire to step it up another level? This class will teach you how to create a simple chart portlet and then walk you through the steps required to build the more complex drilldown portlet.	60
CL - TechADV	GEL Scripts Introduction	Have you never used GEL within Clarity? This class will teach you the basics of leveraging GEL within your workflow process. It's one of the most powerful and underutilized capabilities in Clarity for updating objects, sending emails, and XOGing. This class is designed for those that have never used GEL before.	50

Class Code	Name	Description	Duration (minutes)
CL - TechADV	GEL Scripts Intermediate	Do you have a basic understanding of GEL scripts but need to a better understanding of how they work? This class will teach you how to XOG data in and out of objects in GEL as well as perform basic emails inside GEL.	50
CL - TechADV	Performance Optimization SQL Tuning and Jaspersoft Tricks	Are your reports and portlets performing well? This class will walk through specific SQL tuning tricks to make queries run faster, increase end-user satisfaction, and smooth-out system performance. This is an easy way to promote efficient future development and make a huge, positive impact on user experience. [JPMC to provide case study]	50
CL - TechADV	Technical Round Table Q&A	Could you use advice on specific, advanced technical issues? Participate in this moderated Q&A discussion on complex technical issues and how to solve them.	50
CL - TechADV	Data Model Advanced	Do you have a good grasp on the data model for timeslices? This class will be a detailed discussion of what they are, how to access them in sql, how to structure them, custom time slices, etc.	60
CL - TechADV	NSQL Portlets Advanced	Are you ready to build some advanced portlets? This class will teach you how to build very complex portlets, for example tapping into time-scaled data to create a two-dimensional portlet. You will also learn how to build a hierarchical list where data is displayed in expandable levels to show parent/child relationships.	60
CL - TechADV	Building an Inbound File Based Integration Lab	Do you want to know more about building integrations using a flat file placed on an SFTP Server? This session will be a hands-on lab to build an inbound flat file integration and discuss best practices around error handling.	60
CL - TechADV	Expert GEL - Using Java	Are you already an advanced GEL script user and you are looking to take your GEL to the next level using Java? This class is not for the faint of heart - we will delve into advanced java within GEL scripts.	50
CL - TechADV	HTML Portlets Advanced	Have you ever wanted to build portlets that were not limited by the out-of-the-box portlet types? This class will explore some of the options to build eye-popping portlets using HTML, including calendars, Kanban boards, tile-based project lists, and some special Star Wars themed communication portlets.	50
CL - TechADV	Creating Channels and Links	Have you experimented with the newUX channels and links? Our technical experts have unlocked these capabilities to allow you to be creative in what you can do within the newUX. Come and learn how with this hands on session.	50
CL - TechADV	Configuration/ Administration in the New UX	This class will focus on the setup of the new UX. This class will include topics such as: turning on new UX, setting up links, blueprints, and configuration of tiles and objects. We will also explain how the new UX and the Classic UX interact when it comes to administration (e.g., if I build a process in classic, does it still get triggered in new UX? if I add a new attribute in classic, how is it exposed in new UX?).	50
CL - TechADV	Outbound File Based Integrations w/ External BI Extracts	Do you want to know more about building outbound integrations using a flat file placed on an SFTP Server? Does your organization have an external BI tool like Cognos, Tableau, Domo, or Qlikview? This session will review strategies for getting data into your corporate BI tools. We will also show Rego's data extraction tool and how it can be used for all outbound file based integrations to save money and time.	50
CL - TechADV	Technical Lab	Could you use advice on specific, advanced technical issues? Participate in open lab to get help on real technical items - get some free technical consulting time.	1/2 Day
CL - Tech-BEG	Administration Beginner	Learn basic administrative tasks in this basic administration Clarity training, which includes setting up resources, security groups, OBSs, lookups, time reporting periods, fiscal time periods, calendars, jobs, and timeslices. These activities are focused on ongoing support vs. new configuration.	Full Day

Class Code	Name	Description	Duration (minutes)
CL - Tech-BEG	Administration Advanced	Learn advanced administrative development tasks—including Objects and Fields, Object Portlets, Basic Processes, and XOG. In the last portion of this class we will walk through the high level data model within the Clarity database and walk through some basic NSQL portlets. This is a more technical class focusing on basic configurations - designed for non-technical people (especially the last 3 hours of the day)	Full Day
CL - TechRPT	Jaspersoft Studio Beginner	Learn the basics of creating Jaspersoft studio reports. This session will walk through basic features and introduce report development utilizing the basic report capabilities of Jaspersoft Studio such as Text Fields, Frames, Static Text, Breaks, Lines and Common Page Information Components, Grouping/Sorting, Status Indicators, Dynamic Images, Input Controls, and Basic Charting.	Full Day
CL - TechRPT	Jaspersoft Studio Advanced	"Already have a base understanding of Jaspersoft Studio development? This session will include advanced topics like: duplicating and modifying an OOTB report, Multiple Datasets, Subreports, Charting, Widgets integration, and Crosstabs. The detailed agenda is as follows: Jaspersoft Advanced – Out of the Box Customization (2 hours) • OOTB Reports, OOTB Domains, Resource Bundles, Security – Access Grant Schemas Jaspersoft Advanced – Chart Development (2 hours) • Explore multiple advanced charting techniques and types, using built-in charting components. Including: Properties (Colors, Plot options, Sizing, Gauges, Etc.), Dual pie chart, Time series, Heat map Jaspersoft Advanced – Scriptlets (2 hours) • Introduction to the basics of Jaspersoft Studio Scriptlet development, utilizing java libraries in custom java classes to perform complex tasks in a simple manner. Jaspersoft Advanced – Roundtable (1 hour) • Crystal capabilities missing in Jaspersoft Studio, Sharing examples, report bursting need, automation needs, working with internal BI groups"	Full Day
CL - TechRPT	Jaspersoft Ad Hoc Beginner	Learn how to take advantage of the ad-hoc reporting capabilities of Jaspersoft, which comes embedded in Clarity 14.2 and later. This class is designed to provide hands on exercises to teach individuals how to utilize the power of this new product. As users begin building their own reports and dashboards, the burden on developers will decrease and Clarity perception and adoption will increase.	1/2 Day
Extra	PowerBI Dashboards Beginner	Clarity now allows an external ODTA connector. Do you want to see the capabilities of PowerBI and how this BI tool can be used to report against the Clarity database? This class is a hand on beginner training class for PowerBI - learn how to build basic reports against the Clarity data warehouse.	1/2 Day
Extra	Agile Transformation What to Expect	Agile is here to stay, but waterfall may be as well. Companies around the world struggle with living in a bimodal development world, while trying to go through an agile transformation. This session will be a working sessions to discuss best practices and lessons learned within companies that have gone through agile transformations. We will also review SAFe as a potential approach.	110
Extra	Application Portfolio Mgmt. Business Value	Does your organization want to implement application portfolio management? Are you trying to determine the value in implementing APM? Are you struggling to know what tool you should use and what data is important to collect? This session will review specific use cases of companies that have implemented APM and effectively used the data to drive value for the organization.	50
Extra	Project Management Minimizing the Risk of Failure	"Do you want to improve the success of your projects. This class will discuss some lessons learned on making projects more successful. We will discuss things like: • Developing Robust Test Plans, Creating Effective Use and Test Cases and Implementing Test Scripts that make sense. • Why Failures Occur and What you can do to minimize the impact and plan for Success: Case Study in Lessons Learned. • Developing, testing, fine tuning and executing deployment plans for success."	50

Class Code	Name	Description	Duration (minutes)
Extra	PMO Continuous Assessment Best Practices	Are you ready to implement a continuous improvement practice within your PMO? This class is a working session to help build and sustain a continuous assessment initiative within your PMO, helping to manage goals and objectives from start-up through maturity. We will also discuss growth mapping to processes, tools and strategic objectives.	50
Extra	PMO Maturity Assessment	How mature is your PMO? Where do you go from here? This class is a working session includes an exercise to assess how far you've come and help direct your course.	50
Extra	Stakeholder Management	People are the #1 key to successful implementation, acceptance and sustaining adoption after the project is long gone. Find out some tips and tricks on how to keep those key stakeholders engaged.	50
Extra	Using APM App Rationalization	This session will walk through a step by step approach to doing application rationalization within your organization. The session will also review how to sell the benefits and process within your organization.	50
Extra	Manage your technology finances with agility: IT Budgeting / IT Planning Approaches and Tools	Does your IT organization struggle with IT budgeting and annual planning? Does your annual budget and planning process take months? This session explores leading approaches and purpose built tools to shorten your budget cycle, align resources to business needs, and plan resources into future years while reducing errors and manual effort.	50
Extra	Quantify the value of agile: Agile Executive Dashboarding	Do you want to analyze cost and utilization of agile development resources? Do you struggle with integrating financial information with work execution information from agile tools such as CA Agile Central, Jira or VersionOne? This session explores reporting and dashboarding approaches to provide technology leaders with KPIs and trends for agile execution and views that relate agile team activity with cost and delivery.	50
Extra	Proactive insights and analytics for TCO: Tools and Data Sources to help calculate TCO	Does your organization struggle to understand your fully burdened TCO for the applications that enables your business? Do you use spreadsheets and disparate data sources to manually calculate TCO? This session explores the data sources needed to calculate the fully burdened TCO for applications and the tools in the marketplace to track spending and provide trends of applications broken down by run/dev costs.	50
Extra	Introducing Apptio Agile Insights	In this new bi-model IT environment, does your organization lack insights into what agile work is being done and what value is being delivered? Learn how Agile Insights can merge data from multiple agile tools and Clarity to bring together a total picture of the value IT is delivering	50
